

ROHAN HENRY RICHARD SAMINATHAN

Frontend & Full-Stack Developer | React · Next.js · TypeScript · Node.js

+1 660-580-5038 · rohanhenryrichardsaminathan@gmail.com · linkedin.com/in/contact-rohan-henry/ · github.com/RohanHenry · [Portfolio](#) · Pleasanton, CA 94588

PROFESSIONAL SUMMARY

React/Next.js developer with 2+ years delivering client-facing products at Staffigo and Revvlift. Strong in TypeScript, REST API integration, RBAC systems, and responsive UI. Currently completing an M.S. in Technology at UCM (May 2026). Available for full-time frontend or MERN-stack roles immediately upon graduation.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, Python, SQL, HTML5, CSS3

Frontend: React.js, Next.js, Tailwind CSS, Bootstrap, Vite

Backend: Node.js, Express.js, Prisma ORM, REST API design & integration

Databases: MySQL, PostgreSQL, MongoDB

Platforms: Shopify, WordPress, GoHighLevel, Vercel, cPanel

Tools: Git, GitHub, VS Code, Figma, React Hook Form, Zod

PROFESSIONAL EXPERIENCE

Revvlift

Nov 2023 – May 2024

Web Developer / Software Engineer | India

- Delivered 10+ client websites using React, HTML5, CSS3, and JavaScript, achieving consistent cross-browser compatibility across Chrome, Safari, and Firefox.
- Customized Shopify and WordPress themes for 6+ clients, cutting average design-to-delivery time by ~30% through reusable component templates.
- Integrated third-party APIs and payment tools, improving site engagement metrics and reducing post-launch bug reports through rigorous A/B testing and QA cycles.
- Optimized front-end performance via lazy loading and asset compression, reducing average page load times by 20–25% across client projects.

Staffigo

Oct 2022 – Oct 2023

Web Developer / Software Engineer | Chennai, India

- Built and maintained 12+ dynamic, responsive web interfaces using HTML, CSS, JavaScript, and Bootstrap, translating Figma designs into pixel-accurate, mobile-first pages.
- Managed hosting and deployment for all client sites on cPanel, including domain config, email setup, and MySQL database connectivity — zero downtime across all launches.
- Performed ongoing UI updates, performance monitoring, and feature enhancements in an agile team, consistently delivering projects on or ahead of schedule.

PROJECTS

SaaS Customer Support Dashboard | Next.js · React · TypeScript · Tailwind CSS · Node.js · Express · Prisma · MySQL

GitHub: github.com/RohanHenry/saas-support-dashboard

- Built a production-grade SaaS platform with JWT authentication, role-based access control (RBAC), full ticket CRUD, analytics dashboard, and an audit trail — all with search, filter, sort, and pagination.
- Implemented type-safe forms and validation using React Hook Form + Zod, reducing form-related bugs to zero during testing across all role types.
- Architected a clean full-stack separation (Next.js frontend, Express REST API, Prisma ORM) that scales horizontally — project is deployment-ready on Vercel + Railway.

AI Website Growth Agent Platform | *Next.js · TypeScript · Prisma · PostgreSQL*

GitHub: github.com/RohanHenry/ai-growth-agent

- ▶ Developed an AI-powered SaaS platform that auto-generates landing page content, with a dashboard for search/filtering, saved page cards, live preview rendering, editable content, and HTML export.
- ▶ Built a regeneration endpoint with PostgreSQL persistence via Prisma — project includes seed data and is fully deployment-ready with a clean full-stack architecture.

AI Chat Bot | *React.js · Tailwind CSS · JavaScript · Vite · puter.ai API*

GitHub: github.com/RohanHenry/ai-chatbot

- ▶ Built a responsive AI-powered chat app with real-time interactions, organized message display, smooth scrolling, and mobile-first layout using React.js and Tailwind CSS.
- ▶ Integrated puter.ai API for dynamic AI responses, implementing async state management, loading indicators, input validation, and reusable component architecture.

EDUCATION

University of Central Missouri

Master of Science in Technology | Warrensburg, MO, USA

Aug 2024 – May 2026

Karunya University

B.Tech in Electronics & Communication Engineering | Coimbatore, India

Jun 2018 – Jun 2022
